## **After Death: Letters from Julia** William T Stead

This book is a collection of the series of messages contained in this volume under the title, "Letters from Julia, or Light from the Borderland, received by automatic writing from one who has as gone before." Since then the little volume has been six times reprinted in England, and at least one translation has appeared abroad. I have received so many grateful letters from persons in all parts of the world, who, after sorrowing for their dead as those that have no hope, felt on reading this book as if their lost ones were in very truth restored to life, that I can no longer refuse to issue it to a wider public. I have not changed a word or syllable in the letters themselves. They stand exactly as they were printed in the original edition where they were reproduced from the automatic manuscript of the invisible author who used my passive hand as her amanuensis. I have also left unaltered the introduction explaining how these letters were written. But I have changed the title to one which is more challenging than "Letters from Julia," and which also indicates more explicitly the subject of the book. (From the Preface)
