Analysis, Complex Geometry, and Mathematical Physics: In Honor of Duong H. Phong (Contemporary Mathematics)

Analysis, Complex Geometry, and Mathematical Physics: In Honor of Duong H. Phong (Contemporary Mathematics)

This volume contains the proceedings of the Conference on Analysis, Complex Geometry and Mathematical Physics: In Honor of Duong H. Phong, which was held from May 7-11, 2013, at Columbia University, New York. The conference featured thirty speakers who spoke on a range of topics reflecting the breadth and depth of the research interests of Duong H. Phong on the occasion of his sixtieth birthday. A common thread, familiar from Phong's own work, was the focus on the interplay between the deep tools of analysis and the rich structures of geometry and physics. Papers included in this volume cover topics such as the complex Monge-Ampere equation, pluripotential theory, geometric partial differential equations, theories of integral operators, integrable systems and perturbative superstring theory.

From reader reviews:

Eric Campbell:

As people who live in the actual modest era should be upgrade about what going on or information even knowledge to make these individuals keep up with the era that is certainly always change and move ahead. Some of you maybe can update themselves by examining books. It is a good choice for you personally but the problems coming to you actually is you don't know which you should start with. This Analysis, Complex Geometry, and Mathematical Physics: In Honor of Duong H. Phong (Contemporary Mathematics) is our recommendation to make you keep up with the world. Why, because book serves what you want and wish in this era.

Carmen Annunziata:

The feeling that you get from Analysis, Complex Geometry, and Mathematical Physics: In Honor of Duong H. Phong (Contemporary Mathematics) is the more deep you searching the information that hide into the words the more you get enthusiastic about reading it. It does not mean that this book is hard to understand but Analysis, Complex Geometry, and Mathematical Physics: In Honor of Duong H. Phong (Contemporary Mathematics) giving you excitement feeling of reading. The writer conveys their point in specific way that can be understood through anyone who read this because the author of this publication is well-known enough. That book also makes your personal vocabulary increase well. Making it easy to understand then can go with you, both in printed or e-book style are available. We advise you for having this kind of Analysis, Complex Geometry, and Mathematical Physics: In Honor of Duong H. Phong (Contemporary Mathematics) instantly.

Kelly Gomes:

The actual book Analysis, Complex Geometry, and Mathematical Physics: In Honor of Duong H. Phong (Contemporary Mathematics) will bring you to the new experience of reading the book. The author style to explain the idea is very unique. When you try to find new book you just read, this book very suitable to you. The book Analysis, Complex Geometry, and Mathematical Physics: In Honor of Duong H. Phong (Contemporary Mathematics) is much recommended to you to see. You can also get the e-book from your official web site, so you can quicker to read the book.

Mark Montague:

The reason why? Because this Analysis, Complex Geometry, and Mathematical Physics: In Honor of Duong H. Phong (Contemporary Mathematics) is an unordinary book that the inside of the publication waiting for you to snap that but latter it will shock you with the secret the idea inside. Reading this book next to it was fantastic author who write the book in such wonderful way makes the content inside of easier to understand, entertaining approach but still convey the meaning completely. So , it is good for you because of not hesitating having this nowadays or you going to regret it. This amazing book will give you a lot of

advantages than the other book possess such as help improving your ability and your critical thinking method. So , still want to delay having that book? If I ended up you I will go to the book store hurriedly.
