Insect Lives: Stories of Mystery and Romance from a Hidden World

Insect Lives: Stories of Mystery and Romance from a Hidden World

Insects inhabit an often unexamined microcosmos, pursuing lives that are often strange beyond our wildest imaginings. From the dawn of humanity, our six-legged fellow Earthlings have repelled and enthralled us. Humans have exterminated, eaten, domesticated, and even excommunicated insects. We collect them, we curse them, and we have penned a surprising body of literature about them.

Insect Lives: Stories of Mystery and Romance from a Hidden World offers an entertaining and informative survey of the human fascination, dreadful and otherwise, with insects diabolical and divine, from accounts in the Bible and Aristotle to the writings of Charles Darwin and the great nineteenth-century naturalists sending home accounts from the rain forest. Highlighted here are observations from E. O. Wilson, Jean-Henri Fabré, David Quammen, May Berenbaum, Roger Swain, William Wordsworth, A. S. Byatt, Gary Larson and more than sixty other writers who tell of the mystery and romance of that other, hidden world beneath our feet and beyond our rolled-up newspapers.
