Two-dimensional Signal Analysis (ISTE)

Two-dimensional Signal Analysis (ISTE)

This title sets out to show that 2-D signal analysis has its own role to play alongside signal processing and image processing.

Concentrating its coverage on those 2-D signals coming from physical sensors (such as radars and sonars), the discussion explores a 2-D spectral approach but develops the modeling of 2-D signals and proposes several data-oriented analysis techniques for dealing with them. Coverage is also given to potential future developments in this area.
