Capture Your Kids in Pictures: Simple Techniques for Taking Great Family Photos with Any Camera

Jay Forman

A technical narrative does not inspire great pictures of kids, looking at captivating pictures does. Using stunning yet unimimidating photographs and simple techniques, this photography guide teaches parents how to take better photographs of their children. The images are the main teaching tools, so the reader is not bogged down by jargon. The supporting text is strong but simple, as are the instruction-filled captions. Every photograph profiled in the book was taken with a basic digital or 35mm camera in natural or basic lighting, so parents do not need to worry about using complicated lighting gear or techniques. Parents will learn to take strong photographs that capture the personality, spirit, and perspective that only their children have.
