## **Animal Investigations: Level 4 (Mathematics Readers)** Diana Noonan

Learn about different animals that live in the city, collecting data and making predictions about each of them! This entertaining title teaches readers about many different kinds of animals and encourages analytical habits, engaging children with simple practice problems relating to ecology and mathematics. Predict where students can find ducks, sparrows, rabbits, dragonflies, and more animals! With STEM themes, clear mathematical charts and diagrams, easy-to-read text, an accessible glossary, and vivid images, this book will engage readers and encourage them to collect data and make predictions about animals and many other topics on their own!

## **About Shell Education**

Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.
