Aspects of Sobolev-Type Inequalities (London Mathematical Society Lecture Note Series)

Laurent Saloff-Coste

Aspects of Sobolev-Type Inequalities (London Mathematical Society Lecture Note Series) Laurent Saloff-Coste

This book focuses on Poincaré, Nash and other Sobolev-type inequalities and their applications to the Laplace and heat diffusion equations on Riemannian manifolds. Applications covered include the ultracontractivity of the heat diffusion semigroup, Gaussian heat kernel bounds, the Rozenblum-Lieb-Cwikel inequality and elliptic and parabolic Harnack inequalities. Emphasis is placed on the role of families of local Poincaré and Sobolev inequalities. The text provides the first self contained account of the equivalence between the uniform parabolic Harnack inequality, on the one hand, and the conjunction of the doubling volume property and Poincaré's inequality on the other.

From reader reviews:

Florence Adams:

Have you spare time for the day? What do you do when you have more or little spare time? Yes, you can choose the suitable activity to get spend your time. Any person spent their own spare time to take a stroll, shopping, or went to typically the Mall. How about open or even read a book eligible Aspects of Sobolev-Type Inequalities (London Mathematical Society Lecture Note Series)? Maybe it is to become best activity for you. You already know beside you can spend your time using your favorite's book, you can more intelligent than before. Do you agree with it is opinion or you have additional opinion?

Eunice Buckley:

Now a day those who Living in the era everywhere everything reachable by interact with the internet and the resources included can be true or not need people to be aware of each information they get. How many people to be smart in getting any information nowadays? Of course the correct answer is reading a book. Looking at a book can help persons out of this uncertainty Information specifically this Aspects of Sobolev-Type Inequalities (London Mathematical Society Lecture Note Series) book because this book offers you rich data and knowledge. Of course the knowledge in this book hundred percent guarantees there is no doubt in it everbody knows.

Myrtie Hammond:

Is it you actually who having spare time in that case spend it whole day by watching television programs or just laying on the bed? Do you need something totally new? This Aspects of Sobolev-Type Inequalities (London Mathematical Society Lecture Note Series) can be the answer, oh how comes? A book you know. You are consequently out of date, spending your time by reading in this fresh era is common not a geek activity. So what these textbooks have than the others?

John Yang:

Some individuals said that they feel fed up when they reading a e-book. They are directly felt it when they get a half parts of the book. You can choose the actual book Aspects of Sobolev-Type Inequalities (London Mathematical Society Lecture Note Series) to make your own personal reading is interesting. Your personal skill of reading ability is developing when you like reading. Try to choose basic book to make you enjoy to study it and mingle the opinion about book and studying especially. It is to be very first opinion for you to like to open a book and study it. Beside that the guide Aspects of Sobolev-Type Inequalities (London Mathematical Society Lecture Note Series) can to be a newly purchased friend when you're really feel alone and confuse using what must you're doing of this time.
