The *Colorist* seeks nothing less than to demystify color aesthetics. After three years of extensive travel and research, color specialist Shigenobu Kobayashi has devised a stunningly simple method for pinpointing personal color preferences. A series of clear-cut exercises allows you to accurately define your color sense and then locate it on an "image scale" in order to select compatible color schemes for home or office, or even wardrobe.

Next, Kobayashi illuminates the underpinnings of color in everyday and ornamental settings, revealing the hidden technique beneath each successful color scheme. He introduces a full range of colors for all moods and tastes, then presents eight psychological color types to assist you in putting your own color profile to practical use in the bedroom, den, playroom, or office.

With over 500 color photographs, 50 charts, and hundreds of sample "color-scale chips," the *Colorist* not only delivers a unique method of defining color sense but provides invaluable insights into the art of using color, making it an indispensable guide for home owners, decorators, artists, and designers-indeed, anyone who works with or enjoys color.
