Introduction to Noncommutative Algebra (Universitext)

Matej Brešar

Introduction to Noncommutative Algebra (Universitext) Matej Brešar

Providing an elementary introduction to noncommutative rings and algebras, this textbook begins with the classical theory of finite dimensional algebras. Only after this, modules, vector spaces over division rings, and tensor products are introduced and studied. This is followed by Jacobson's structure theory of rings. The final chapters treat free algebras, polynomial identities, and rings of quotients.

Many of the results are not presented in their full generality. Rather, the emphasis is on clarity of exposition and simplicity of the proofs, with several being different from those in other texts on the subject. Prerequisites are kept to a minimum, and new concepts are introduced gradually and are carefully motivated. *Introduction to Noncommutative Algebra* is therefore accessible to a wide mathematical audience. It is, however, primarily intended for beginning graduate and advanced undergraduate students encountering noncommutative algebra for the first time.

From reader reviews:

Michelle Porter:

Do you have favorite book? In case you have, what is your favorite's book? Publication is very important thing for us to learn everything in the world. Each e-book has different aim or maybe goal; it means that publication has different type. Some people feel enjoy to spend their time to read a book. They can be reading whatever they get because their hobby is reading a book. Think about the person who don't like looking at a book? Sometime, individual feel need book when they found difficult problem as well as exercise. Well, probably you will require this Introduction to Noncommutative Algebra (Universitext).

William Davis:

Have you spare time to get a day? What do you do when you have a lot more or little spare time? Sure, you can choose the suitable activity with regard to spend your time. Any person spent their very own spare time to take a stroll, shopping, or went to often the Mall. How about open or maybe read a book allowed Introduction to Noncommutative Algebra (Universitext)? Maybe it is to become best activity for you. You recognize beside you can spend your time with your favorite's book, you can better than before. Do you agree with its opinion or you have other opinion?

April Hall:

Is it a person who having spare time then spend it whole day through watching television programs or just lying down on the bed? Do you need something new? This Introduction to Noncommutative Algebra (Universitext) can be the reply, oh how comes? The new book you know. You are consequently out of date, spending your free time by reading in this new era is common not a geek activity. So what these ebooks have than the others?

Nicholas Mishler:

A number of people said that they feel bored when they reading a guide. They are directly felt that when they get a half portions of the book. You can choose the particular book Introduction to Noncommutative Algebra (Universitext) to make your own reading is interesting. Your own skill of reading talent is developing when you similar to reading. Try to choose easy book to make you enjoy to study it and mingle the impression about book and reading through especially. It is to be first opinion for you to like to available a book and study it. Beside that the reserve Introduction to Noncommutative Algebra (Universitext) can to be your brand-new friend when you're feel alone and confuse with what must you're doing of that time.
