Excerpt from Faith-Healing Christian Science and Kindred Phenomena

In 1849 I first saw performances in "animal magnetism." A "professor," of fluency, fine appearance, and marked self-possession, lectured with illustrations; feeble men after being "magnetized" become strong, and persons ordinarily reticent spoke eloquently on subjects suggested by the audience. Great excitement arose, and the attention of medical men was attracted to the curative powers of "magnetism." A dentist, who was also a physician, acquired the art, and a paralytic when under "the influence" moved an arm long useless. Persons whose teeth were extracted felt no pain during the operation.

Some years afterward, at boarding-school, a young man who was very devout occupied a room with me. A revival in town extended to the school, and the young man was brought from a meeting in a "trance" and placed upon the bed. He was unconscious for some hours; his limbs were rigid, and it was possible to lift him by the head and feet without his body yielding in the least degree; nor could the strongest man bend his arms. At length he opened his eyes, uttered pious ejaculations, and relapsed; this recurred at irregular intervals. By one o'clock in the morning he had resumed his natural state.
