Formulas, Facts and Constants for Students and Professionals in Engineering, Chemistry, and Physics

Helmut J. Fischbeck, Kurt H. Fischbeck

The second edition of "Formulas, Facts and Constants" has been enlarged without undue increase in volume. The constants have been revised to 1986 values. Prompted by comments of many readers a section on error analysis has been added. Most importantly, the new edition now has a subject index in addition to the detailed Table of Contents. The basic format has not been changed and the aim of the book remains to be a handy source of formulas, conversion factors and constants for everyday use. Fundamental tools of mathematics needed in all areas of the physical sciences are given in Section 1. Conversion factors and fundamental constants are listed in Section 2. Section 3 gives information on terms and facts of spectroscopy and atomic structure. Section 4 reviews basic elements of wave mechanics. Section 5 is a resource for work in the laboratory and is intended to be of assistance in the use of frequently encountered equipment such as electronic devices, detectors, vacuum systems, etc. Material constants and other data frequently needed for estimates and problem solving are provided. This new edition is dedicated to the memory of my father, Kurt Fischbeck, who was instrumental that this book was written in the first place. I have benefitted from his experience as an editor and author. He died shortly before the first edition appeared in print. I wish to thank my colleagues Jack Cohn and Stewart Ryan for their useful comments.

From reader reviews:

James Ames:

This Formulas, Facts and Constants for Students and Professionals in Engineering, Chemistry, and Physics tend to be reliable for you who want to be considered a successful person, why. The reason why of this Formulas, Facts and Constants for Students and Professionals in Engineering, Chemistry, and Physics can be among the great books you must have is giving you more than just simple examining food but feed anyone with information that possibly will shock your earlier knowledge. This book will be handy, you can bring it almost everywhere and whenever your conditions both in e-book and printed kinds. Beside that this Formulas, Facts and Constants for Students and Professionals in Engineering, Chemistry, and Physics forcing you to have an enormous of experience like rich vocabulary, giving you trial of critical thinking that we understand it useful in your day exercise. So , let's have it and revel in reading.

Jerry Bates:

This book untitled Formulas, Facts and Constants for Students and Professionals in Engineering, Chemistry, and Physics to be one of several books that will best seller in this year, that's because when you read this guide you can get a lot of benefit on it. You will easily to buy this book in the book store or you can order it through online. The publisher with this book sells the e-book too. It makes you easier to read this book, since you can read this book in your Cell phone. So there is no reason for you to past this reserve from your list.

Caleb Hutto:

Do you have something that you like such as book? The publication lovers usually prefer to select book like comic, brief story and the biggest one is novel. Now, why not trying Formulas, Facts and Constants for Students and Professionals in Engineering, Chemistry, and Physics that give your satisfaction preference will be satisfied through reading this book. Reading habit all over the world can be said as the opportunity for people to know world much better then how they react in the direction of the world. It can't be said constantly that reading routine only for the geeky particular person but for all of you who wants to end up being success person. So , for all you who want to start looking at as your good habit, you can pick Formulas, Facts and Constants for Students and Professionals in Engineering, Chemistry, and Physics become your own personal starter.

Gale Velez:

Within this era which is the greater particular person or who has ability in doing something more are more special than other. Do you want to become considered one of it? It is just simple approach to have that. What you are related is just spending your time little but quite enough to get a look at some books. One of many books in the top listing in your reading list is usually Formulas, Facts and Constants for Students and Professionals in Engineering, Chemistry, and Physics. This book and that is qualified as The Hungry Mountains can get you closer in getting precious person. By looking upwards and review this publication

you can get many advantages.
