## **Single-Minded** Kate Wharton

We live in a couples culture, where a partner, if not a spouse, is assumed; where the expectation is that unmarried people will be sexually active even if not in a committed relationship. But what about those who because of their faith, or their preferences, choose to remain celibate until they find Mr or Miss Right? Kate Wharton tackles directly and compassionately the questions that this choice throws up: issues of identity (church roles and social invitations alike too often assume 'a couple'); finance (it is much cheaper to live together than alone); sexual pressure (staying pure, in thought as well as deed); friendship (including being friends with the opposite sex) and calling (the cost of obedience may preclude marriage). What challenges face those who, through divorce or death, are single again? This positive, honest book will be a source of wisdom and comfort to anyone who is single, whether or not they expect to remain so.
