The Encyclopedia of French Tanks and Armoured Fighting Vehicles: 1914-1940 François Vauvillier
France, alongside Britain, represents the birthplace of a new weapon that will revolutionize the art of war: the armored tank. And even before the appearance of this new piece of armament, it was in France around the turn of the twentieth century that we see the appearance of the first armored and combat vehicles.

In encyclopedic form, without forgetting any of the principal one hundred autos (tanks and armored cars) and their 200 variants and derivatives (troop transport, bridge layers, anti-mine tanks, etc..), This book offers a panorama absolutely full of all the vehicles that have succeeded or surrounded the Great War until the beginning of World War II.

A detailed though concise text concise, this work offers precise tables presenting all the specifications of the primary vehicles. With abundant illustrations (rare period photographs, sumptuous color profiles) this book an essential reference for both specialists and amateurs.
