Multidisciplinary Approach to Facial and Dental Planning, 1e William GWA Arnett DDS FAC, Richard P. McLaughlin BS DDS, Michael Gunson

This brand new volume offers orthodontists and oral surgeons with a systemized and objective approach to facial and dental planning.

Fully evidenced-based throughout, Multidisciplinary Approach to Facial and Dental Planning presents a proven system of diagnosis and treatment planning which involves analysis of the True Vertical Line, rather than the traditional measurement of the cranial base.

Containing over recent 40 clinical cases, this clearly written and beautifully illustrated book includes the latest developments in computerised imaging techniques - including cephalometric analysis - as well as the latest research findings in the understanding of bone growth and biology, including the influence of hormones on facial modelling.

Prepared by authors of international renown, this new volume is ideal for orthodontists and oral surgeons both qualified and in training.

- Explains the importance of methodological and standardized case documentation to achieve successful treatment outcomes
- Provides a practical protocol for the diagnosis and treatment planning of routine cases as well as offering thorough methods of evaluation for difficult and challenging cases
- Guides the practitioner in objectively determining facial harmony and balance
- Describes a technique which has been shown to avoid problems such as occlusal relapse, periodontal decline and TMJ dysfunction
- Illustrated case histories demonstrate the clinical success of the methods described
- Describes a goal directed technique that is suitable for all levels of difficulty
- Practical and superbly illustrated manual prepared by a world-renowned author team
- Presents the latest research findings about hormonal influences on bone growth and facial development
- Examines the latest developments in cephalometric analysis and other computerized imaging techniques
- Presents updated stratagems that now include racial and age differences
