A Cross Section of Nursing Research: Journal Articles for Discussion and Evaluation Roberta J Peteva

- The 39 research articles in this collection illustrate a wide variety of models for both quantitative and qualitative nursing research.
 - The lines in each article are sequentially numbered, which facilitates classroom discussions by allowing professors and students to pinpoint specific parts of an article.
 - The articles have been carefully selected for use with students who are just beginning their study of research methods. The difficulty level will challenge but not overwhelm.
 - Factual Questions at the end of each article draw students' attention to methodologically important points.
 - Questions for Discussion request students' opinions on unique aspects of each article.
 - Helps instructors avoid copyright infringement problems. The publisher has paid fees to the copyright holders for permission to include the research articles in this book.
 - New to this edition: A copy of our Bonus Articles for A Cross Section of Nursing Research booklet is included free of charge.
 - The research articles are classified under these major headings:
 - nonexperimental quantitative research
 - true experimental research
 - quasi-experimental research
 - pre-experimental research
 - qualitative research
 - combined qualitative and quantitative research
 - test reliability and validity research
