Chocolate, Cocoa and Confectionery: Science and Technology Bernard Minifie

The second edition of this book achieved worldwide recognition within the chocolate and confectionery industry. I was pressed to prepare the third edition to include modern developments in machinery, production, and packaging. This has been a formidable task and has taken longer than anticipated. Students still require, in one book, descriptions of the fundamental principles of the industry as well as an insight into modern methods. Therefore, parts of the previous edition describing basic technology have been retained, with minor alterations where necessary. With over fifty years' experience in the industry and the past eighteen years working as an author, lecturer, and consultant, I have collected a great deal of useful information. Visits to trade exhibitions and to manufacturers of raw materials and machinery in many parts of the world have been very valuable. Much research and reading have been necessary to prepare for teaching and lecturing at various colleges, seminars, and manufacturing establishments. The third edition is still mainly concerned with science, technology, and production. It is not a book of formulations, which are readily available elsewhere. Formulations without knowledge of principles lead to many errors, and recipes are given only where examples are necessary. _ Analytical methods are described only when they are not available in textbooks, of which there are many on standard methods of food analysis. Acknowledgments I am still indebted to many of the persons mentioned under "Acknowledgments" in the second edition. I am especially grateful to the following.

From reader reviews:

Mary Bingham:

Why don't make it to be your habit? Right now, try to ready your time to do the important take action, like looking for your favorite reserve and reading a reserve. Beside you can solve your trouble; you can add your knowledge by the e-book entitled Chocolate, Cocoa and Confectionery: Science and Technology. Try to face the book Chocolate, Cocoa and Confectionery: Science and Technology as your friend. It means that it can to become your friend when you truly feel alone and beside those of course make you smarter than ever. Yeah, it is very fortunated in your case. The book makes you a lot more confidence because you can know everything by the book. So , let me make new experience and also knowledge with this book.

Donald Jones:

Book is usually written, printed, or illustrated for everything. You can know everything you want by a reserve. Book has a different type. We all know that that book is important point to bring us around the world. Close to that you can your reading talent was fluently. A guide Chocolate, Cocoa and Confectionery: Science and Technology will make you to possibly be smarter. You can feel considerably more confidence if you can know about everything. But some of you think which open or reading any book make you bored. It is far from make you fun. Why they are often thought like that? Have you seeking best book or appropriate book with you?

Elizabeth Johannes:

That reserve can make you to feel relax. This particular book Chocolate, Cocoa and Confectionery: Science and Technology was colorful and of course has pictures around. As we know that book Chocolate, Cocoa and Confectionery: Science and Technology has many kinds or style. Start from kids until teens. For example Naruto or Investigation company Conan you can read and believe that you are the character on there. Therefore not at all of book are make you bored, any it can make you feel happy, fun and chill out. Try to choose the best book for yourself and try to like reading in which.

Nathaniel Mitchell:

As a scholar exactly feel bored in order to reading. If their teacher asked them to go to the library as well as to make summary for some guide, they are complained. Just tiny students that has reading's internal or real their leisure activity. They just do what the teacher want, like asked to the library. They go to at this time there but nothing reading significantly. Any students feel that reading through is not important, boring and can't see colorful pics on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this Chocolate, Cocoa and Confectionery: Science and Technology can make you sense more interested to read.
