Advanced Technologies in Modern Robotic Applications

Chenguang Yang, Hongbin Ma, Mengyin Fu

Advanced Technologies in Modern Robotic Applications Chenguang Yang, Hongbin Ma, Mengyin Fu

This book presents in a systematic manner the advanced technologies used for various modern robot applications. By bringing fresh ideas, new concepts, novel methods and tools into robot control, robot vision, human robot interaction, teleoperation of robot and multiple robots system, we are to provide a state-of-the-art and comprehensive treatment of the advanced technologies for a wide range of robotic applications. Particularly, we focus on the topics of advanced control and obstacle avoidance techniques for robot to deal with unknown perturbations, of visual servoing techniques which enable robot to autonomously operate in a dynamic environment, and of advanced techniques involved in human robot interaction. The book is primarily intended for researchers and engineers in the robotic and control community. It can also serve as complementary reading for robotics at the both graduate and undergraduate levels.

From reader reviews:

Angela Taylor:

Do you considered one of people who can't read pleasant if the sentence chained inside straightway, hold on guys that aren't like that. This Advanced Technologies in Modern Robotic Applications book is readable by means of you who hate those straight word style. You will find the information here are arrange for enjoyable studying experience without leaving also decrease the knowledge that want to give to you. The writer regarding Advanced Technologies in Modern Robotic Applications content conveys the idea easily to understand by a lot of people. The printed and e-book are not different in the articles but it just different by means of it. So , do you nonetheless thinking Advanced Technologies in Modern Robotic Applications is not loveable to be your top collection reading book?

Michael Torres:

Reading a book to be new life style in this calendar year; every people loves to examine a book. When you learn a book you can get a lots of benefit. When you read textbooks, you can improve your knowledge, due to the fact book has a lot of information on it. The information that you will get depend on what sorts of book that you have read. If you wish to get information about your review, you can read education books, but if you act like you want to entertain yourself read a fiction books, this sort of us novel, comics, as well as soon. The Advanced Technologies in Modern Robotic Applications provide you with new experience in looking at a book.

Jodi Dunn:

Beside this specific Advanced Technologies in Modern Robotic Applications in your phone, it could give you a way to get nearer to the new knowledge or info. The information and the knowledge you are going to got here is fresh through the oven so don't always be worry if you feel like an outdated people live in narrow village. It is good thing to have Advanced Technologies in Modern Robotic Applications because this book offers to you personally readable information. Do you at times have book but you rarely get what it's about. Oh come on, that will not happen if you have this in your hand. The Enjoyable blend here cannot be questionable, like treasuring beautiful island. Techniques you still want to miss the item? Find this book in addition to read it from at this point!

Debra Shortt:

You may get this Advanced Technologies in Modern Robotic Applications by look at the bookstore or Mall. Simply viewing or reviewing it could to be your solve issue if you get difficulties for ones knowledge. Kinds of this book are various. Not only by simply written or printed but additionally can you enjoy this book by means of e-book. In the modern era such as now, you just looking because of your mobile phone and searching what their problem. Right now, choose your personal ways to get more information about your reserve. It is most important to arrange you to ultimately make your knowledge are still update. Let's try to

choose correct ways for you.
