Chemistry (Flash Cards) Reza Hussain

The Chemistry study tool is made up of three parts: a 119-page spiral bound periodic table, 100 flash cards, and a corresponding 21-page exercise manual. The periodic table explains the oxidation states, isotopic abundance, source, properties, and configuration of each element. The flash cards are designed to help students understand the basic concepts of chemistry through the use of vocabulary, visual images, and concepts. The exercise manual has 35 exercises that challenge the student to put into practice the concepts of chemistry through basic application.
