The Crain Strategy C E Wood

John Thayer, Capitol Hill correspondent for a prestigious Washington newspaper, is no stranger to the intrigues and power plays of Washington politics. Still, his reporter's instincts rocket to high alert after sharp questioning by a powerful senator about a recent story in his newspaper. Thayer's story, about the death of a well-known and influential publisher, has put the senator in a fighting mood. The senator believes that the death of the publisher - a long time friend - is not from natural causes as the story reports, but is almost certainly a case of murder. The senator thinks he knows who's responsible and intends to use his powerful position to bring the killer - an obscure media mogul - to justice. When startling revelations by a beautiful subordinate of the mogul, Damien Creed, persuade Thayer to believe the senator's charges and to support him through his newspaper, he too becomes a target of the vendetta by the mysterious Creed. Thayer risks losing everything as the battle escalates and he's unable to mount a defense against such a powerful enemy. With his own life now in peril, he fears that the very survival of The United States of America depends on him and a handful of allies who have stumbled upon a diabolical conspiracy with unthinkable consequences. The little group finds itself ill-prepared to resist the dark ambitions of Creed and the most ruthless and power-hungry politician that America has ever known. The conflict soon explodes beyond a simple case of murder to a cataclysm that rocks the very foundations of the U.S. Government, threatening to extinguish nearly two and a half centuries of American democracy.
